Experience

IsoTherapeutics Group, LLC

2011 – Analytical Lab Technician
Performs laboratory and support functions needed to conduct assays of radioactive compounds for clients. Lab equipment used regularly: HPLC, Osmometer, pH meter, Endosafe, Dose Calibration, UV Vis, incubators. Maintains master and official copies of procedures, reagent batches, and other records. Collects bio-products from animals for studies that required it.

Kelly Services at Dow Chemical Company, Freeport, TX

2010 - 2011 Analytical Lab Technologist
Performed laboratory and support functions needed to conduct intra-Dow analytical analyses and studies. Ran Sievers TOC; Ran JY ICP, and was learning PE ICP. Prepared standards for ICP and TOC for various studies. Prepped samples for analysis in X-ray, TOC, ICP, and CHN for many different clients. Inventoried, cataloged, and made databases for all chemicals in our five labs. Maintained ready stock at work stations, including keeping solutions, such as HNO₃, prepared. Performed laboratory housekeeping. Packed and sealed lab packs for disposal and appropriately disposed of glassware.

2010 Census Bureau, Rosenberg, TX

2010 - 2010 Crew Leader / Supervisor
Managed twenty-three enumerators and three crew leader assistants who canvassed our district in this series of fast-paced operations

Medcor, Inc McHenry, IL

2005 – 2009

Paramedic / Medical Administrator

2003 – 2005

Occupational Health Technician / Paramedic

Tended to medical emergencies and non-emergencies encountered by employees and customers at contracted sites in a variety of cities in the United States, and managed any site where I also served as Medical Administrator. Treated injured and ill employees and customers; followed-up, as needed. Documented and entered data of patient care, Routinely performed on-site drug and alcohol testing. Supervised all staff on site (as Medical Administrator). Managed OSHA and Worker's Compensation cases. Maintained records of and submitted payroll. Oversaw inventory control. Accompanied Safety Teams on site inspections. Conducted orientation classes on site specific safety for new personnel
